

Amongst Ourselves: A Self-Help Guide to Living with Dissociative Identity Disorder

Amongst Ourselves is a self-help guide written expressly for individuals with DID/MPD and the first to provide readers with the practical steps they can take to cope with the condition and emerge with greater self-awareness and the skills to live a rich and rewarding life. Authors Tracy Alderman and Karen Marshall explain what DID is and provide a clear account of its underlying causes and symptoms. They describe what it's like to live with DID and make practical suggestions for coming to terms with the condition, managing the confusion and self-destructive behaviors that often accompany it, and deciding to come out to others. Karen lends a unique and immensely important perspective, in that she is able to speak as both a therapist and as an individual with DID. Through her insights, as well as guided exercises throughout the text, readers learn: New skills and strategies to help them manage living with DID An appreciation for DID's positive aspects What to expect from therapy and available treatment options How to become more aware of themselves and the ways in which DID affects their lives
