

Down under: Mineral heritage in Australasia : an illustrated history of mining and metallurgy in Australia, New Zealand, Fiji and Papua New Guinea (Monograph)

In the four countries in which The Australasian Institute of Mining and Metallurgy has branches -- Australia, New Zealand, Fiji and Papua New Guinea -- the mining and mineral industries have a long and honourable place in national, economic and social history. This book, based on papers given to AusIMM branches by Sir Arvi Parbo in 1990, when he was President of The Institute, tells the story of the mining and mineral industry in the four countries (from the Publishers notes inside the dustjacket).
