

Let the Shadows Speak

Is Christian Unity Possible? Is it possible that most Christians could agree on doctrines such as: Eternal Security, Infant baptism, Original sin, Women as elders, Free will, Predestination, Homosexuality, Who has the keys of the Kingdom?, Penance, The Deity of Christ, Filioque, Why do good people suffer?, Religious hierarchies, Purgatory, and Salvation? Gaglardi believes it is possible to find common ground on all doctrines. The key lies in an ancient biblical tool that has been largely set aside by today's church. This book revives that tool, and applies it to the doctrines above, and several more. The author sets out to prove that God intentionally designed this tool and deliberately placed it in the Bible for this very use. The power of this ancient tool lies in the fact that it paints doctrines in pictures, rather than in words. We can't argue over pictures the way we do over words. This book offers a significant blueprint, and is a rallying call, for dismantling the walls of division that exist in the church. Christian unity is possible and vitally important to achieve. * * * * *

Practical, insightful, learned and godly. A first-aid kit for today's church. Editor, Xulon Press Gaglardi has never attended any seminary, so he has no allegiance to any Christian division or its teachings. He has studied the Bible for over 40 years, and shadows, in particular, for over 35 years. The central point of this book is the author's alone, although he has gained from many ideas about typology from countless others. The author has taught Bible for 35 years. He served as an elder for two years, and preached intermittently when called upon. He is passionate about teaching the Bible, encouraging excellence in Christian education, encouraging Christians to be more committed, and of course, Christian unity.
