

# Daily Handwriting Practice, Contemporary Cursive

Daily Handwriting Practice, Contemporary Cursive is more than just a handwriting book; it is a learning tool that helps developing young minds practice basic skills in an interesting and unique way. For example, on the topic Simple Machines, students learn about simple tools and the physics applied in using them. Students write letters, words, and sentences about a variety of content-area topics appropriate for the classroom. Monday through Thursday, the weekly subjects for writing exercises range from famous inventors to famous quotations, amazing hunters to the water cycle. On Friday, a full-page exercise draws the topic to a close by reviewing what was learned earlier that week. This book is a useful and effective teaching tool because each letter is introduced and practiced before students are asked to use it. Skills reinforced that help keep handwriting legible include: correct letter formation, letter placement, spacing between letters, and spacing between words.
