

Doubting Darwin?: Creationist Designs on Evolution

Noted biologist and philosopher Sahotra Sarkar exposes the frauds and fallacies of Intelligent Design Theory, and its claim to be good science. A scientific and philosophical exploration of the debate between evolutionary theory and Intelligent Design in the classroom Puts the debate into its scientific and historical context Looks at a variety of topics, including the relation between Darwinism and modern evolutionary theory, the use of computer science and information theory by the creationists, and the idea of metaphysical naturalism Rejects Intelligent Designs claim to legitimacy, showing clearly how and why it is an unsuitable alternative to evolutionary biology in the classroom A thought-provoking book for those seeking to understand an intellectual debate that is shaping our education policies Forms part of the provocative and timely Blackwell Public Philosophy series
