

Every woman in the Sixties envied Samantha from Bewitched. She could just wiggle her nose whenever she wanted to change something. Wouldn't that be great? Well, it may be a little more challenging than the Hollywood nose-wiggle, but Earth Mother Magic gives you dozens of spells, recipes, and incantations to bring everything from money to that old boyfriend into your life. Illustrated with original art, Earth Mother Magic will put you well on your way to having the things you want. Most of all, it's a lot of fun, doesn't require any special equipment, and just might make you feel like a goddess. Discover: Which flower added to your bath will bring you more respect. What to hang over your bed to provide beautiful dreams. The spell that will get him to call you. Which seed is the love spell seed and promises to bring fertility to women and great virility to men. Based on the notion that magic works best when it is performed in harmony with Mother Nature, Earth Mother Magic shows you how to tap into the innate magic in the natural world. You'll learn how to live according to the phases of the moon (including when is the best time to start a diet), and when is the best month to conceive a child.
