

A.D.D. In Poetry, One Familys Journey With Attention Deficit Disorder

About the Book A.D.D. in Poetry, One Familys Journey with Attention Deficit Disorder, is a collection of uplifting and meaningful poetry paired with delightful color illustrations, that will warm the hearts of its readers and will remind them that there is life after the ADD/ADHD diagnosis. This book is written in a simple, down-to-earth language and offers insight to an ADD/ADHD childs mind. Each poem expresses thoughts and feelings on how one can live and enjoy today and will inspire one to never give up hope for a better tomorrow. This book can be a wonderful gift to a loved one and/or caregiver experiencing ADD/ADHD first hand. I am not a doctor, but having to care for four ADD children and share a relationship with an ADD husband, I feel I may have practical experiences to share with others. My children have shared their experiences and have given their stamps of approval on each poem. It is a reflection of how they feel about themselves. I also hope to leave the reader a sense that they are not alone in their daily journey with Attention Deficit Disorder.
