Our Young Folks A broad has encouraged the author and publishers of that work to offer a second volume, describing the adventures of another party of young Americans in a region as yet new to the readers of juvenile literature. Four young Americans and a distinguished professor in a leading institution of learning in the United States meet for the first time on a steamer in which they are crossing the Atlantic, and finding their acquaintance a pleasant one, resolve to make a visit to Algeria. This is successfully accomplished; and the travellers are so raueli pleased with their experience of Northern Africa that they resolve to undertake an expedition across the dark continent, from the Atlantic to the Indian Ocean. This resolve is speedily put into execution, and the Young American Expedition to South Central Africa Bucessfully accomplishes the feat of marching from Benguela, on the Atlantic, to the river Zambezi, and thence to Durban, the capital of the Briti Bhprovince of Natal, on the Indian Ocean, from which they return home by steamer. The greater portion of the work is devoted to the journey through South Central Africa, a region comparatively unknown to Europe and America at the present day, and an earnest effort has been made to familiarize the young reader with countries, peoples, and customs which, in all probability, he will never have the opportunity of visiting.(Typographical errors above are due to OCR software and dont occur in the book.)About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology.Forgotten Books Classic Reprint Series utilizes the latest technology to regenerate facsimiles of historically important writings.
