

Based exclusively on the biblical verses, the book “Modern Technology and Sciences in the Bible” reveals outstanding facts that modern discoveries are actually a rediscovery of remote ancient knowledge practically in all major fields of technology and sciences. Each biblical quotation on these subjects has been analyzed, comparing them with modern knowledge in technology, astronomy, cosmology, physics, geology, biology, medicine, and metaphysical philosophy. It proves that this high level of knowledge actually belonged to a sophisticated prehistoric civilization. It also concludes that original unknown biblical texts are just pieces of vanished records left behind by an advanced society of aliens (biblical gods) that visited and settled on the earth before our time. The book is supported by an appendix, which includes glossary, glossary of persons, geographical glossary, measurements, bibliography, and maps.
