

# Self Reliance Mastery: Learn How to Be Self-Reliant, Live Sustainably, and Be Prepared for Any Disaster

Live a More Self Reliant Sustainable Lifestyle with Pure Freedom by Learning from Leading Experts Inside Self-Reliance Mastery. Being injured is one thing, but being injured and not knowing how to take care of it yourself is another! Learn how to overcome migraines, survive a stroke or heart attack, reverse hypothermia, fix cavities and teeth decay, stop massive bleeding, clot internal bleeding, protect yourself against pandemic, virus, and bacteria, and so much more with these Super Herbs! If and When the Power Grid Fails, Do You Know How to Generate Your Own Electricity? Or How to Power Your Refrigerator from Your Car? What if you had all of the electricity you needed for any kind of survival situation. When the grid goes down, there are bare electrical essentials such as lights, warmth, and keeping food cold that you need to focus on. If you know how to generate just enough electricity to keep your essentials up, you will have a great chance of survival. Most people dont know how to use solar effectively. They dont realize how ineffective it is against things like Solar Storms and EMP attacks. Solar is certainly a powerful way to get more off the grid and be more energy independent, but do you know how to protect your solar so it lasts for many years? Or how to set your solar up so its safe, effective, and feeds all of your needs? We cover all of these subjects, and much more inside this book. Being self reliant helps you to be prepared for any kind of disaster or survival situation. But do you know what you need to have on hand at all times? What should you put in your go bag? Where would you go, how would you get there, and how long would you stay? Its not about living in fear, but being smart and prepared for any kind of disaster whether natural or man-made, and you will learn all of this and a lot more during the interviews in this book. Knowing how

much water you need for yourself and your family is key. One of our experts says you need a minimum of 2 gallons per person per day in a self-reliant or survival situation - minimum. Are you set up for that? Do you know the proper equipment to use? Learn all of this and more during the information available in the book. What if you could learn how to generate enough food for your family in only one hour per day of gardening? And what about the long term food production with little maintenance such as food forests? Learning these permaculture skills will not only help you live more self reliant and be healthier, but could potentially save your life in the event of a food shortage spread nationwide. And a lot more!
