As someone who has been experiencing hair loss since his early twenties, I have tried and tested many products on the market, chemical and natural, that reduce hair loss and encourage re-growth. The solution however doesn't just end there. There are many other factors in life that can contribute to loss, growth and the maintenance of healthy hair. This resource will help you understand the cause and also provide numerous hair treatments that I and millions have tried with effective results. This has been a long personal journey of trial and education. When something such as hair loss is affecting you, time matters and we all wish for an immediate solution.
