

Social Work Processes (with InfoTrac) (Methods / Practice of Social Work: Generalist)

Compton and Galaways highly respected SOCIAL WORK PROCESSES has long set the standard for social work practice texts. Continuing its strong emphasis upon process and collaborative partnerships between social workers and clients, the text incorporates systems and ecological perspectives, advocacy, case management, and group and community work. The books conceptual framework supports, encourages, and organizes skill development and skill teaching in a diversity of settings and client populations. Dr. Barry R. Cournoyer updates this comprehensive Seventh Edition by including extensive use of Web-based resources and evidence-based exercises within its process-oriented perspective.
