

## More Than a Watchmaker: An Autobiography by Rick Hohn

More Than a Watchmaker is the autobiography of Rick Hohn, an amazingly accomplished man who was diagnosed at age two with cerebral palsy, which affects all four of his limbs and restricts his speech. The doctor who was diagnosing him told his parents that despite his severe disabilities he would be able to do anything, but make a watch. Her conclusion was shocking to them, but still encouraging. The doctor knew he had intelligence, but obviously lacked the fine-motor abilities to do intricate work. How true this diagnosis has been! Threading this theme throughout his autobiography, Rick Hohn glorifies God for having given him so many other abilities besides making watches. Broken at a young age from a deep depression, Rick struggled and persevered to become who he is today, a man of contagious joy. Now, having established his own ministry, Spirit Wheels Ministry - a Ministry Associate of Joni and Friends -, he is an associate pastor for his church and guest speaks in other churches, schools and organizations around the country. As an evangelist, a motivational speaker, a consultant for DynaVox, (the manufacturer of speech-generated devices), an artist and an author, Rick gives his autobiography, an honest story, written from the heart, which is entertaining and encouraging to all. Rick's life is a testimony to his faith in God. He has accomplished so much more than just being able to handle the details on a tiny watch.
