

## The Little Book of The Properties of Magical Energy (The Bio-Universal Energy Series)

The Little Book of The Properties of Magical Energy from the Bio-Universal Energy series provides the practitioner with an in depth discussion of the capabilities and limitations of both personal power and Divine power. Through the effective understanding of the nature of energy itself, its conduct and manipulation, this book enhances the readers understanding of effective use of the awesome power inherent in the Universe itself. Discover how to use the power of the tactile senses to improve the outcome of magical workings through color, sound, smell, music and visual effects that will clear obstacles to positive manifestation. The authors explore practical discussions of trance meditation, astrological influences, natural effects and the power and the meaning of the written word and Divine Will to guide the energy worker through some of the more difficult aspects of working with magical energy. The study of Bio-Universal energy and its use in creating the life we want to live is one that never ends. Not only do we continually discover new and interesting ways to apply Bio-Universal energy in our own lives, but the ever-evolving field of study regarding energy itself constantly creates new knowledge of how energy of all kinds works. These newly emerging principles can usually be applied to Bio-Universal energy as well. Keep the theories and facts -- and the fact is that facts constantly change in the scientific world -- that you learned in high school Earth Sciences in mind as we explore the principles of Bio-Universal energy and you will quickly see that what applies to one type of energy, applies to another as well. When you are born, you have a soul/spirit. That spirit has energy that is your own personal bio energy. The energy naturally seeks to be changed into form and manifest in other ways. This book and the other books in the Bio-Universal Energy Series teach you

specifically how to apply your own personal spiritual energy with that of the Divine to reach your goals. The focus on this book is on how to amplify the energies you use to manifest the life you want to live. What speeds up your Bio-Universal energy flow and what slows it down or grounds it altogether? The Little Book of The Properties of Magical Energy is an exploration of the various practices and influences that will help you manifest your positive goals and create an amazing, magical life for yourself.
