

How To Heal The Underlying Causes Of Sex Addiction For COMPLETE Recovery

Sex addiction is usually combined with other addictions such as drugs, food, & gambling along with a co-occurring mental health problem such as depression, bipolar disorder, etc. By successfully treating the sex addicts mental health problems their sex addiction and other addictions will cease to exist. Most rehab programs dont provided evidence based treatment and have a 1% to 3% success rate. Studies have shown that meth addicts who were given the antidepressant Bupropion had a significant decrease in cravings which could lead to COMPLETE recovery from addiction. The majority of rehabs dont have staff who are qualified to treat mental health problems and addiction. Fear of antidepressants also keeps millions of sex addicts and other types of addicts from seeking the life saving help they need.
