

The Challenge for Africa

The troubles of Africa today are severe and wideranging. Yet, too often, they are portrayed by the media in extreme terms connoting poverty, dependence, and desperation. Here Wangari Maathai, Nobel Peace Prize laureate and founder of the Green Belt Movement, offers a refreshingly unique perspective on these challenges, even as she calls for a moral revolution among Africans themselves. Illuminating the complex and dynamic nature of the continent, Maathai deftly describes what Africans can and need to do for themselves, stressing all the while responsibility and accountability. Impassioned and empathetic, *The Challenge for Africa* is a book of immense importance.
