

THE SOCIAL WORK SKILLS WORKBOOK, Eighth Edition, enables students to develop proficiency in professionalism and the essential social work skills. Each skill supports one or more of the 43 knowledge and value statements and the 31 practice behaviors that elaborate the core competencies in the 2015 EPAS of the CSWE. The skills also align with nationally standardized licensing exams. The text includes expository content grounded in contemporary research, assessment tools and processes, and strong experiential components that help students get a realistic sense of the field. Case examples, summaries, and skill-building exercises cultivate students professionalism and expertise as confident, ethical, and effective helpers. Current social issues are evident throughout. The perforated three-hole-punch format can be used as a main text in social work skills labs, a resource for field or internship courses, or a supplement to social work methods and practice courses.
