

The Launch King - Street Smart Tactics For Launching Any Business or Start-up Venture

This book reveals street smart tactics, strategies and insight the author (Marc Charles) gained in more than 30 years of launching, buying, selling businesses and helping entrepreneurs. Marc Charles does not hide behind bogus business and success theories. You will learn dozens of tactics, strategies and hard won techniques for starting, running, buying and selling businesses. This book also includes more than a dozen business plans that were submitted to Marc with his comments, review and suggestions. Unbelievable. Marc's new book is a gold mine. I loved it! I've been in business for more than 12 years. I've never read a more complete book on business start-ups
